

## JAZAN PORT

---

### Project Scope:

---

The Port of Jazan City for Primary and Downstream Industries (JCPDI) will serve as the country's southern gateway to the rest of the world, as well as the primary gateway for logistics services, in line with the Saudi Vision 2030 goals of transforming Saudi Arabia into a leading industrial power and global logistics hub, as well as attracting international investment. HUTCHISON Company (an international port operator) has been contracted (through revenue sharing business model) for 40 years to operate Jazan port and invest in port development (equipment, maintenance).

### Added Value:

---

- Attract international experience in port operation
- Enhancing logistic performance index
- Integration and efficiency of port operation
